SAFE STRANGERS

3

Depending on the children's cognitive abilities you may be able to introduce other possible safe strangers such as a cashier, employee, police officer or security guard.

Always make sure to reiterate that we never go anywhere private with this safe stranger. We ask for help in our strong voice and then we stay in a public place.

Sara got separated from her family. This nice man offered to help her find them. Should Sara go with him? Why? Why not? Are there any SAFE HELPERS she should have asked for help?
